## 1. What are the limitations of CSS ?

CSS classes are bits of CSS code that can be applied to specific elements in the event website to add custom graphic effects and animations. However, there are limitations. These include:

CSS classes are created within the event theme. If you're unable to customize CSS, contact your account's admin.

You can only target classes that have a

"Customize" element in the Site Designer.

You must have a period (.) prior to the class name, or the code will apply to all applicable elements across the event website and registration process.

You cannot add more than 10,000 characters within the CSS section per event.

## 2. How many ways can a CSS be integrated as a web page?

Inline CSS
